reterring to the points he was directed by status to charge upon,
and stating in reference to the License law that he held to the
same opinion expressed in a former charge—riz: that it was
not a miscenteriant to sell import without a risense under the act
of 1857, but it was such to sell to minors, paupers or Indians to
conclusive himonors or to sell on Sundays—ue then called espe-

uptions in the contract system, recity offered and received.

After the charge, the Grand Jory retired to their labors, and he Court adjourned to this morning.

THE WALL STREET DEFALCATION. RREST AND DISCHARGE OF A BANK

TELLER-EIGHTY THOUSAND DOLLARS MISSING. We gave in THE TRIBUNE of yesterday the fact

that one of the officers of the Mechanics' Banking Association of Wall street had been arrested, charged with embezzling between \$70,000 and \$80,000 of the funds of that institution. Yesterday morning the details were made public. They are briefly these:

Deputy Superintendent Carpenter received informs.

tion, on Monday afternoon, that a heavy defalcation had taken place in the Bark of the Mechanics' Banking Association, Well excet, and that Mr. Andrew Van Biarcom, for six years its Paying Teller, was strongly suspected of being the delinquent. Acting upon this clue, the Deputy, and Officers Elder and McCard, attached to his office, took immediate steps to effect Van Liarcom's arrest, and accomplished their purpose on the following evening. The accused remaintd in custody of the Deputy Superintendent all COMMERCIAL MATTERS. night. The amount of the defalcation has not been definitely ascertained, but it is supposed to be about \$72,000. A private investigation of the matter was made yesterday, at the Bank, by the President and other fficers of the institution, for the purpose of enabling the President, Stockholders, Directors, and all parties interested, to ascertain the nature of the offense committed, and the amount of money taken. The presence of Van Blarcom at the Bank was regarded as highly necessary to assist in overhauling the books to get at the desired object. He takes the matter with perfect indifference, and, judging from his manner, expects to acquit himself from all guilt in the alleged defalcation. He lives in good style at No. 113 Bleecker street, where he has a family. In due time, the matter will no doubt be brought before Jastice Welsh, at the Lower Police Court, for examination, should the facts elicited by the Bank officers place the defalcation at the door of the defendant.

Mr. Van Blarcom has been the first Teller of the Bank for six years. He has been connected with the Bank hearly thirteen years, having been first employed in the capacity of porter. He says that he has spreties that will nearly cover the alleged defalcation.

The Bank did no business yesterday beyond receiving notes sent to be discounted. These were placed under envelopes subject to the call of the parties depositing them. Its suspension was owing to the fact that it has been shaky for some time; and, after being assisted by leans from other banks, it was found that a very large sum would be required to place it upon a stable basis. It was, therefore, expelled from the

Clearing-House.

The defalcation imputed to the Teller is said to have been the result of high living and a desire for display. The action decided upon by the Directors in regard to him has not yet been made public. He was discharged from custody last night, as District-Attorney Hall gave it as his opinion that nothing but a breach of trust had been committed. It is said that no part of the embezzled funds have been appropriated to Van Blarcom's individual use, but that they were loaned out to customers of the Bank, for he holds their notes as security. His sureties for the faithful performance of his trust are amply sufficient to cover deficiency that may have been caused. Van Blarcom is a man about 45 or 50 years of age. rather slim built, and is very hard of hearing. He dresses very plain, and since his arrest he has spoken but few words, except to the President of the Bank.

The suspension of the Bank and the arrest of the Teller caused a crowd to collect and remain in its vicitity during the greater part of yes'erday. It is tated that billholders and depositors will lose nothing by the failure, the securities being amply sufficient to quidate all claims.

STABBING AFFRAY .- Last evening, about 101 o'cleck, a stabbing affray took place in the cellar, No. 43 Mulberry street, between two Germans, named Antonia Hautch and Adam Dazet. It appears that they had both been in the cellar during the evening, drinking and carousing with the girls, and finally Hautch got abusive and made a remark defamator of Dazet's character. He was immediately requested by the latter to make an apology, which he refused to . Sharp words then arose, which led to a fight, in which Hautch was stabbed in the arm and leg. Information of the affair was communicated to Officer Bonner, of the Sixth Precinct, who went to the place n question, but Dazet was not to be found.

Hautch was taken into a drug store near by, on Cen tre street, and medical aid provided for him. His wounds are represented to be ugly and dangerous ones. He was subsequently conveyed to his home in Receivelt street by the officer.

THE CUSTOM-HOUSE .- It was understood that Col lector Schell would at nounce a batch of removals and appointments yesterday, but we learn that he now intends to leave the present incumbents alone until after the Syracuse Convention.

The sheen called to her Father in heaven. A believed mobb., is cold in the grave. The faithful wife has close do her eyes upon him with whom she has spent a whole life in ... se closest ties of true love and faithful affection. Yes: "and more than this. Her exemple of devotion to all the wants and cares and interests of home family, relations and messas, was visible during every hour of her active and energetic life; and all who knew her mourn that she shall be seen and known no more. She was for nearly twenty years the prisoner's friend and the support of the sorrowful and none knew her but to respect and love her. Her loss will long be felt, her presence at his firestde missed, and her pure example of devotion and chairly be lost to many who will fed strongly the purity and single heartedness of her character. Her pure spirit has gone, but her heme on earth still shall be in the hearts of those who knew her best.

TUESDAY, Sept. 1-P. M. The Stock market to-day presents the same irregular features as for several days past, the transactions being mainly confined to cash operations. The list presents a wreck of values in railroad securities which the most sanguine bear could scarcely have looked for a month ago. At the Second Board there was a rally In two or three descriptions, especially in Illinois Central, but generally the market was very unsatisfactory, and after the Second Board the feeling was gloomy, but prices were without important change. Erie improved in the morning under the success of the sco,600 loan, and sold up to 201, but afterward reacted to 191. Reading was very heavy, and receded to 53, a decline of 6 P cent, under sales, it is reported, of Philadelphia stock. About 8,000 shares Reading have been trensferred to Philadelphia within a few days. New-York Central lost the firmness of yester day, and declined to 72. La Crosse was very heavy in the morning, selling as low as 10, but recovered in the afternoon to 13. Illinois Central recovered to 91, an advance of 5 P cent. Toledo fell to 34; Galena to 6. Rock Island to 75: Milwaukee and Mississippi to 35: Michigan Southern to 17, and Guaranteed to 35, &c. Illinois Central Bonds fell off to 81], a further decline. The interest due to-day on the bonds of this Company was promptly met. State Stocks show a further decline, Missouris selling at 671, Virginias at 871, Indiana 5s 771, and Ohios at auction at 90.

In Exchange, the business is quite small, and it is very difficult to make sales of Sterling, even at much reduced rates. The leading drawers ask 94 292, but sales of first class outside bills have been made at 8 a 81, and 81 is called the top price. Private transactions by leading drawers are rumored at about that figure. This put a stop, for the present, to the foreign

specie drain. Freights continue firm, but very quiet. To Liver pool, 100 bales Cotton at 3s.; 40 tuns Oil Cake at 9s.; 0 tuns Quercitron Bark at 10s. To London, 500 bbls. The street was taken by surprise to-day by the ancouncement of the failure of Messrs. Beebee & Co., bullion dealers, one of the oldest and most respectable houses in the street. Their embarrasement has been brought about by the decline in securities upon which they had made call loans. The Ohio Trust Company s largely debter to them, and the securities at present are entirely unavailable. The sympathy of the street is strongly expressed toward this house. Their checks drawn yesterday are all paid, and the remittances received to day are sacredly set aside to meet the drafts rawn against them. The other failures of the day are Messis. Adams & Buckingham, prod uce dealers, J. H. Prentice & Co., hat and fur dealers, and one or two others. To these must be added the Mechanics' Banking Association, which did not open its doors this morning for business, being unable to make i's account good at the Clearing-House. It has been known for several days past that this bank was in trouble, and it has received aid from the other banks, but its affairs, upon examination, were found to be too much embarrassed for effect tual assistance, and it has been expelled from the Clearing-House. The default of the teller is \$72,000, and it has a large amount of "cash items," some 300,000, of very little value. The defalcation of the teller has been going on for three or four years past, been spent in high living. The and much of it has bank will doubtless be wound up by a Receiver. If \$300,000 or \$400,000 would have saved it, the other banks would have advanced the money, if the

condition of the Bank had been sound. A current rum or that this Bark owed the Shoe and Leather a very large amount, we are anthorized to say is untrue. On the contrary, the latter institution was debtor for a small amount to the former. The use nbers of the Clearing-House, this afternoon, agreed to take the circulating notes of the Backing Association like other city notes. For bill-holders there is no cause for alarm. Its circulation is \$225,116. Its

The arrangement for the aid of the Erie Railroad Comany was favorably concluded to day, and the interest due to-day was paid at the Manhattan Company. The largest portion of the aid was furnished by the Commerce, America, Republic, American Exchange, Pho-Lix. and State. Private capitalists contributed about \$250,000. The success of this negotiation had a favorable influence in the street, but this was counteracted by the influence of the other failures, and Wall street to day presented features of greater excitement than we have noticed for many years. The street was crowded, and rumors of the most ridiculous descrip-tion were freely circulated. Among the faces to be seen were a large number of capitalists and business men, whom the crisis has brought in unusually early from

the watering places and the country.

Money continues very stringent, and best paper goes at 12 # 10 P cent. The uncurrent money brokers are buying at very irregular rates, and the volume of currency for sale has been increased by the unwillingness of many of the city banks to continue their system of receiving uncurrent money on deposit. The American Exchange and Metropolitan, however, continue to receive deposits freely. The rates of discount are too irregular for quotation.

There is no truth in any of the rumors in regard to

banks, other than the Mechanics' Banking Association. On Monday afternoon, the locomotive works of Breese, Kneeland & Co., in Jersey City, in which about 300 men were employed, suspended work. The men were informed that there would be no more work for them at present, until other arrangements were

made.

Mr. John Thompson has made an assignment to Mr. Platt Adams. Mr. Adams is well and favorably known to many of our citizens, and represented Greene County several years in the Senate of the State.

"Mr. Lyell left Detroit for New-York three days ago, to provide against the consequences of the failure of the Obio Life Insurance and Trust Company. He will return here the moment he gets through his business, and is expected daily.

"August 28." TO THE PUBLIC.

The Free Press further states that all the other banking houses of the city are sound, and deserve the same public confidence they have hitherto enjoyed. There had been no run of any moment upon the remaining bankers.

The Buffalo Commercial Advertiser, of last evening, on to the excitement, a run was commenced on

The amount of currency actually redeemed was very small, and much less than the banks were prepared to meet. We think we are corbalks were prepared to the panic rect in announcing, as we go to press, that the panic has subsided, and that no further auxiety need be telt." The Circular of Messrs. Decoppett & Co., of Sepen ber 1, says:

tember 1, tays:
Since our last Circular of the 24th August, we have had a severe patic in every kind of security dealt in at the Stock Exchange. The immediate cause of this may be attributed to tax failure of the Ohio Life and Trust Company, and to other failures announced the following day. The Banks have contracted uses announced the week, sailing in their demand loans, and disconting but a portion of their receipts. This movement and disconting but a portion of their receipts. This movement caused a great and sudden demand for money, which was followed by quick sairs of all kinds of securities, to pay off the money that had been borrowed upon them. This rapid realizing money that had been borrowed upon them. This rapid realizing of stocks and bonds, with the feeling of catrust alreacy existing in the public mind, caused a heavy and sudden fall in prices.

cistrust alreacy existing in the public mind, caused a heavy and sudden fall in prices.

In SyATE SyOCKS there has been more activity, principally in Missouri 6s. North Carolina 6s. Virginia 6s. Tennessee 6s, Indiana State 8s, and Chio 6s of 1886, all at more or less decline in prices.

In City and County Bonds there has been but little done. Some few Cincinnatif 6s, Brooklyn Cities and San Francisco 10s. have changed hands at a decline in prices. All all all all all and the prices. In Railroad Bonds have been neglected; very few sales and all at low prices. In Railroad Shares there have been musually large transactions, and principally for cash. The most marked movement has been in Hilliots Central stock, which has declined 19 per cent, owing parity to the general panic and parity to the sudden and unexpected call for an installment of \$10 per share. In Reading, New York Central, Erie, Cleveland and Toledo, and Patsma there was also great activity.

Money extremely difficult to obtain, even on the best of collisterial. Business paper may be quoted 12 to 22.

The circular of Marié & Kanz, of Sept. 1, 88ys:

The circular of Marie & Kanz, of Sept. 1, says: The circular of Marié & Kanz, of Sept. 1, says:

Our last advices were dated 2th ult. The failure of the Ohio
Life Insurance and Trust Company, which burst upon the community as we were closing our circular, and to which reference
was made in a pasteript, produced the deepest sensation. Confidence, already shaken by the continued decline in stocks for
weeks past, as well as by the and amount of the specie line of
our Banks, disappeared completely on the amouncement of
this unlooked for disaster. Throughout the week the Banks
have refused to discount, loans have been called in on all sides,
and new credits have become almost impossible to obtain; in
consequence of which tocks have been forced for sale at a heavy,
and in some cases an enormious decline. The fall has extended
to all classes of securities the more solid, such as State and
Bank stocks, as well as those having a more purely speculative
character. Furthers on time have become quite impossible to

execute, the sales being almost exclusively for cash. This sixts of things has brought almost a number of failures in the Stock Exchange, and some, are, among the meriantic classes.

Yesterday carfideline seemed likely to be restored by distress, and prices advanced, but to day the stoppace of two of the minur Banks of this city has brought on since the downward tradence, and our quot almost to day are for most stocks the lowest of the week. Mursey continues an extreme demand and the scarcily has caused a section in exchange, which will put a check for some time to the expant of cold.

The shares of Ohio Trust have been sold at 18, and latterly at 18. The havlest decline of the week is on Initials central shares, which have declined 25 great, chiefly owing to the unsuperfied all of site a hare.

New York Sept. 1, 1837.

The market during the beginning of August was quite active for all kinds of Comestic Wool, but more particularly for he iew and medium grades which were easierly sought for at full prices, showing that all grades of domestic Wool coming in competition with foreign Wool, now imported free of dury, are not only in b. ther demand, but comparatively mane began than the finer grades protected by 24 of cent duty. Most grower understand the language of facts, and will now derire to have the dirty removed entirely.

Within the last two days, or since the difficulty 2. We among market, there has been but little demand, and we can therefore buy at lower races.
